Bangladesh will be playing all other full members of the International Cricket Council (ICC) during the next cycle of the ICC Men's Future Tours Programme (FTP) for the period 2023-27, the details of which were confirmed by ICC on Wednesday.

The announcement of the FTP, a result of a collective effort of Full Members with ICC's support, ensures certainty of cricket fixtures with the confirmation of all bilateral series across the three formats. The exact dates of the series are for the members to announce in due course.

Bangladesh make a tour of Ireland in June 2023, which will be followed by a home series of two Tests, three ODIs and three T20Is against Afghanistan in June. The Tigers also have a busy calendar in 2024 during which they host Sri Lanka and Zimbabwe from February to April and then play Afghanistan, Pakistan and India in away Tests mid-year.

A home Test series against South Africa and an away full tour of the West Indies (two Tests, three ODIs and three T20Is) are part of the ICC World Test Championship (WTC) 2023-25 while the 2025-27 WTC finishes off for Bangladesh with a challenging home series against England and an away series in Australia.
